

**Kimberly Gottfried, MS, RN, CCRA,
Director of Site Operations and Training
Project Manger, CORE (RA) Registry**

Kimberly Ellen Gottfried, RN, MS graduated with honors after receiving a full scholarship to Clarkson University in Potsdam, NY where she received her bachelor's degree in Biology. Kimberly's academic excellence at Clarkson was recognized with her election to Beta Kappa Chi, the National Science Honor Society.

Mrs. Gottfried continued studies at Clarkson to receive her Master's degree in chemistry in 1989. With this part of her education complete, she pursued a career in academic research at Albany Medical Center in Albany, NY. Kimberly has co-authored numerous research papers involving protein chemistry and oncogenes as the result of her work at the Center.

In 1998, Kimberly returned to advance her education and obtained her RN degree to further enhance her work in the clinical environment. During this time she served as Certified Clinical Research Coordinator (CCRC) conducting clinical drug trials in the discipline of endocrinology at Albany Medical Center. Kimberly served as Vice President of the Association of Clinical Research Professionals, Upstate NY Chapter, an organization devoted to improving the field of conducting clinical trials and compliance with GCPs.

In 2001, Kimberly was hired by Dr. Joel Kremer to manage the day to day operations of the CORRONA Registry. Kimberly's expertise and understanding of the clinical environment has been an invaluable asset in the ability of CORRONA to obtain high quality statistical data from clinical sites nationwide. Kimberly's expertise is also valued for CORRONA's expanding program of in-house research studies. Kimberly is the physician and site trainer for the organization and serves as Administrative Director for CORRONA.

As a community leader, Kimberly previously owned a local business and served as a member of the Montgomery County Chamber of Commerce. For the past decade, Kimberly has volunteered with the Montgomery County Mental Health Association as a mentor for children with emotional, developmental, and psychological difficulties. A member of the Mohawk Valley Farmers Association, Kimberly practices green and sustainable farming in growing produce and producing market lambs.

Kimberly currently resides in upstate NY, is an avid outdoor enthusiast, and enjoys tennis, golf, skiing and biking
